Civil Action No. 4:18-cv-1652

Bryan Collier, ET AL.

Plaintiff's statement about the use of Cotton Blankets

1. For approximately 7 years I had cotton blankets issued to me by Medical Providers. I had very few skin irritations, mainly dry skin caused by the hard water at the Terrell Unit as per Nurse Provider Abreton. He said that I had psoriasis which was aggravated by the use of TDCJ's fiber blankets.
2. About the end of 2009, maybe later, I was provided with TDCJ's fiber blankets. From the very beginning I itched horribly. This led to constant itching to scratching then eventually sores from all of the scratching.
3. The recycled materials blankets are "furniture covers" for commercial movers like Ward, Atlas and U-Haul.

If my skin reacts to the recycled materials worse than then did to the wool blankets.

5. The recycled materials blankets are washed together causing cross contamination of both.

6. TDSS winter blankets, wool and fibers are washed and dried with TDSS winter jackets. I have seen this myself.

7. Contaminated laundry is dumped in with the regular clothes, washed and dried together. This too I saw myself.

8. I only get the itching after using the fiber blankets. The fibers aggravate the psoriasis too. During the summer I have no problems only after using the fiber blankets.
